

**SportsMed Orthopaedic
Surgery & Spine Center**

SportsMED physicians and staff understand the value of work-injury prevention and provide education to our patients in proper body mechanics, ergonomic positioning, and post-injury rehabilitation to reduce costs and time.

Keeping the employer and insurance carrier apprised of the patient's treatment plan, progress, and status is a priority at SportsMED.

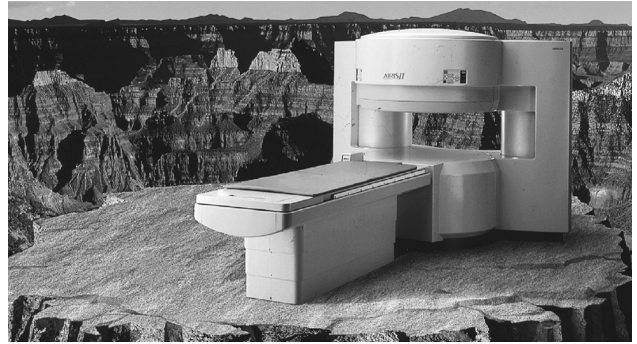

Peggy Towry and Joann Tate are our worker's compensation coordinators. This is our way of providing excellent, undivided service to our **employers** and **case managers**. Please feel free to call Peggy at (256-650-1251) or Joann at (256-705-4148).
